

EQIP 2018
Application
Deadline :
Dec. 15, 2017

Other Cost Share Programs

- CREP (Conservation Reserve Enhancement Program)
- CRP (Conservation Reserve Program)
- WRE (Wetland Reserve Easement)
- SAFE (State Acres for Wildlife Enhancement)
- CSP (Conservation Stewardship Program)

ELIGIBILITY

Farmers and owners of non-industrial private forestland and Indian tribes are eligible to apply for EQIP. Eligible land includes:

- Cropland
- Pastureland
- Non-industrial private forestland

Socially disadvantaged, beginning and limited resources farmers, Indian tribes, and veterans are eligible for an increased payment rate and may receive advance payment of up to 50 percent to purchase materials and services needed to implement conservation practices.

Applicant must:

- Control or own eligible land
- Comply with adjusted gross income limitation (AGI) provisions
- Be in compliance with the highly erodible land and wetland conservation requirements

BENEFITS

Participants receive financial and technical assistance to implement conservation practices or activities like conservation planning, that address natural resources concerns on their land.

EQIP dollars can be used for wildlife enhancement, livestock watering facilities, pastureland improvement, manure management, soil health practice, water quality practice, and forestry management. Payments are made after practices in an EQIP plan are implemented.

HOW TO APPLY

NRCS will help eligible producer develop a conservation plan, which will become the basis of the EQIP application.

Landowner may apply at any time before December 15 of 2017 by contacting their local District Conservationist at www.nrcs.usda.gov/wps/portal/nrcs/site/in/home/contact or visiting: www.nrcs.usda.gov/getstarted

EQIP application will be ranked based on a number of factors including the environmental benefits and cost effectiveness of the proposal.

EQIP

Environmental Quality Incentives Programs provides financial and technical assistance to address natural resources concerns and deliver environmental benefits, such as :

- Improve water and air quality
- Conserve ground and surface water
- Reduce soil erosion and sedimentation
- Improve or create wildlife habitat

LIST OF PRACTICES

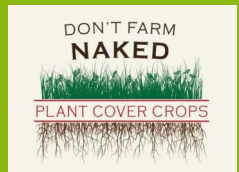

- Animal Mortality Facility
- Roofs and Covers
- Waste Facility Closure
- Waste Storage Facility
- Access Control
- Composting Facility
- Cover Crop
- Denitrifying Bioreactor
- Drainage Water Management
- Integrated Pest Management
- Nutrient Management

FACT SHEET

Establishing Eligibility for USDA Programs

This document explains how to establish eligibility for USDA Programs and the steps on how to apply for USDA Programs

August, 2014

FORMS NEEDED TO APPLY

If you have never worked with the United State Department of Agriculture (USDA) and don't have a farm and tract number, you will need to make an appointment with the Farm Service Agency (FSA) at your local USDA Service Center to establish eligibility for USDA programs.

You will need to bring the following information to the appointment:

- Proof of Identity – you may be required to show a valid state driver's license, passport or other personal identification, as well as provide your Social Security or Employer Identification (EIN) numbers, address and other related information.
- Copy of the recorded deed
- Copy of the articles of incorporation, bylaws, legal power of attorney or partnership paperwork, if applicable

FORMS AVAILABLE AT USDA SERVICE CENTER

- Form AD 1026 – Highly Erodible Land Conservation and Wetland Conservation Determination
- Form CCC 941 – Adjusted Gross Income Certification and Consent to Disclosure of Tax Information
- Form CCC 901 – Members' information for entity and joint operations only

It takes time for the paperwork to be processed and additional information may be needed. Please start this process early in order to ensure you are eligible prior to any program sign-up cutoff dates. If you apply for a USDA program and the system does not show you or your entity as eligible, your application will not be processed or funded.

CONFIDENTIAL and PRIVATE INFORMATION

Many of the program application forms or documentation require the applicant to provide sensitive contact, financial or other confidential information. Disclosure of this data is voluntary, but failure to provide the required information may result in the deferral of an application or denial of a benefit payment. By law and policy, 'confidential, private and sensitive information' is protected by USDA. USDA employees and partners are subject to penalty and disciplinary action for inappropriate or mismanagement of private data.

APPLYING FOR USDA-NRCS PROGRAMS

If you are already a USDA program participant, your records should be on file with FSA, and you are eligible to apply for USDA-Natural Resources Conservation Service (NRCS) programs.

USDA-NRCS Forms

You will need to submit the following paperwork to the NRCS office at your local USDA Service Center prior to the any program sign-up cutoff dates. The office will have these forms and can assist you with the paperwork. Additional items may be needed for specific programs.

- **Form NRCS CPA 1200**, signed and dated by all applicants. Please be sure to answer all questions, one through 11. You may be eligible for additional program benefits if you are able to apply as a:
 - Limited resource farmer,
 - Beginning farmer, or
 - Socially disadvantaged (minority) farmer.
- **Form NRCS CPA 1202 CPC appendix**. Please read the appendix and address any questions you have to the NRCS representative.
- **Form 1199 A, direct deposit form**. You may apply for a one-time hardship waiver if you do not wish to utilize direct deposit.

DUNS Number and SAM Registration

As stated in the NRCS-CPA-1200 Conservation Program Application, if you are participating as a non-individual (entity), you must obtain a DUNS number, and also register with the System of Award Management.

(<https://www.sam.gov/portal/SAM/>)

(<http://fedgov.dnb.com/webform/>)

Land Ownership or Control

You will be required to provide evidence of control of land through ownership documents (deeds, etc.), lease information (rental agreements, permits, lease), or other documentation.

Signature Authority

If the applicant is an entity, documents such as articles of incorporation, charter, bylaws, partnership agreements, trust agreements, wills and similar legal evidence will be needed. If an individual will be signing on behalf of the participant, a POA form (FSA-211) is needed.

Conservation plan

If you do not have a conservation plan on file, the NRCS representative will schedule an appointment with you to complete the on-site assessment and plan. If you already have a conservation plan on file, the NRCS representative will go over your plan. Then you will decide which practices you want to include in the program application(s), and complete the application process.

Program application & ranking

Your NRCS representative will complete the application(s) for specific programs in the computer system, ask for any additional information needed, and rank the application(s). The ranking is based on federal, state and local ranking factors. After the sign-up cutoff date, the highest ranked applications will be funded until the money is exhausted.

FOR MORE INFORMATION

If you would like more information about Farm Bill Program opportunities, check out the Indiana NRCS webpage at: <http://www.nrcs.usda.gov/wps/portal/nrcs/main/in/programs/farmbill/>.

For more information about USDA-NRCS program eligibility or applying for a program, please contact your local NRCS office. You can find your local NRCS office by visiting the Indiana NRCS website at: <http://www.nrcs.usda.gov/wps/portal/nrcs/main/in/contact/local/>.
